Website Admin Guide

How to add a webinar in Project Connect
and how to edit the sections of the website

IPMA KSA · CONTENT ADMIN · 2026

Before you start

Everything on the public website is edited from one private place, the **content admin**. You do not need any technical skills.

Where

The admin has its own address, separate from the website, for example **admin.ipmaksa.world**. Your developer gives you the exact link, your email and your password.

Two languages

Almost every field has two boxes: **Arabic** on the left and **English** on the right. Fill both. If one is empty the website shows the other language instead.

Save = live

When you press **Save changes** the website is updated straight away. There is no publish step.

Delete is permanent

Deleting an item removes it from the website. To hide something without losing it, change its status or untick **Published**.

What you can manage

Menu in the admin	What it controls on the website
Home page	The hero, numbers, sections and call-to-action text of the home page
Pages	About us, certification levels A–D, recertification, privacy and other text pages
Team	Team cards: photo, role, LinkedIn
Exam dates	Upcoming and past exams, with status and dates
How certification works	The 6-stage cycle table, How to prepare, and the FAQ
Project Connect events	Webinars and workshops, with poster, link and recording
Membership benefits	The benefits shown on the Membership page
Badges	The types of badge you can award to members
News	News articles
Contact & settings	Email, phone, social links, footer text
Members & badges	People who created an account, and the badges you award them
Messages	Messages sent from the Contact form

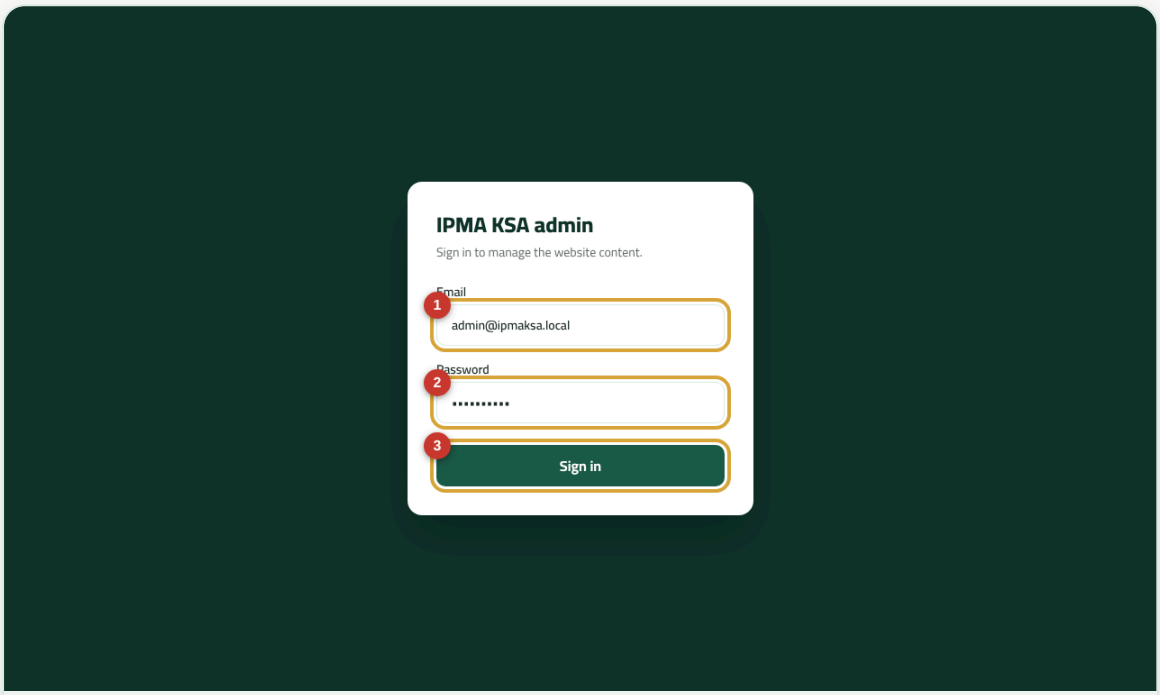

PART A

Add a webinar to Project Connect

Follow these 8 steps. It takes about five minutes.

1 Sign in

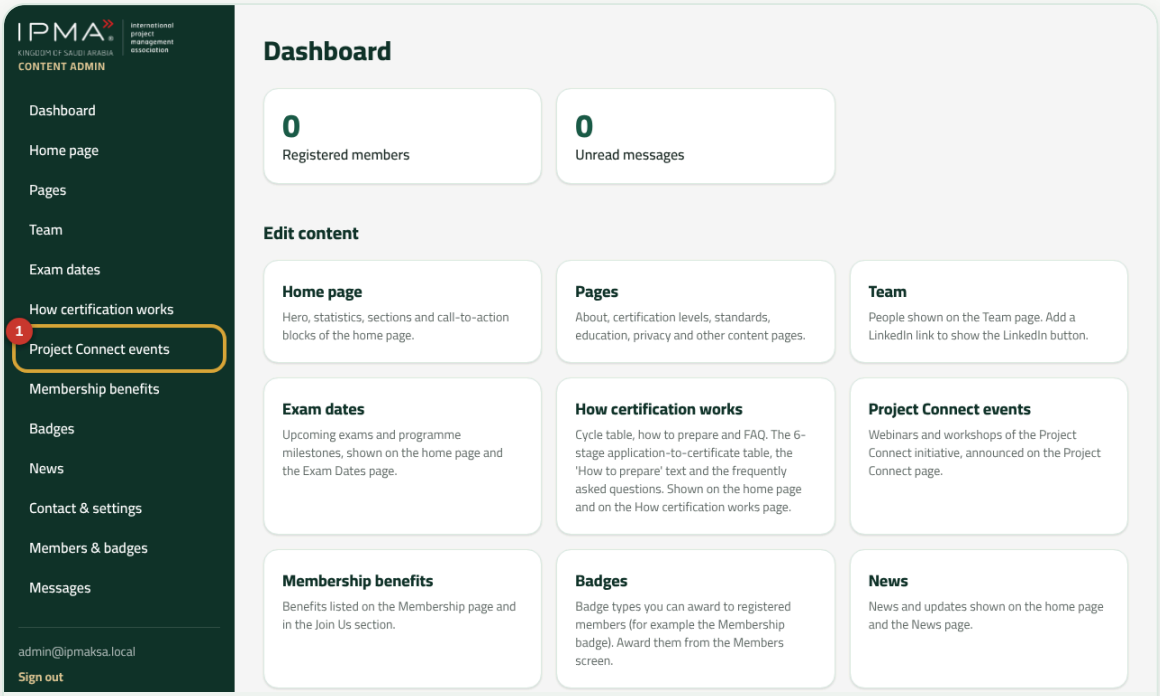

Open the admin link, type your **email** and **password** and press **Sign in**. After five wrong attempts the form pauses for a while, so type carefully.

Admin sign-in page. 1 Email · 2 Password · 3 Sign in.

2 Open “Project Connect events”

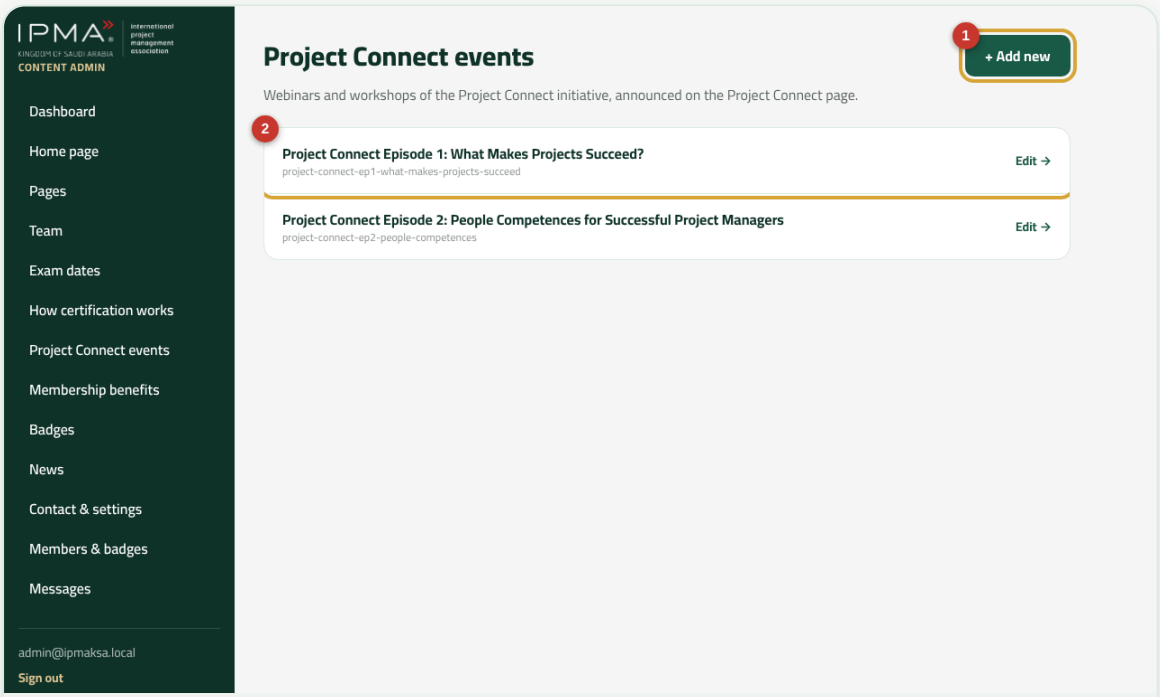

In the menu on the left choose **Project Connect events**. You will see every webinar and workshop already announced.

The menu on the left lists everything you can edit. 1 Project Connect events.

3 Press “+ Add new”

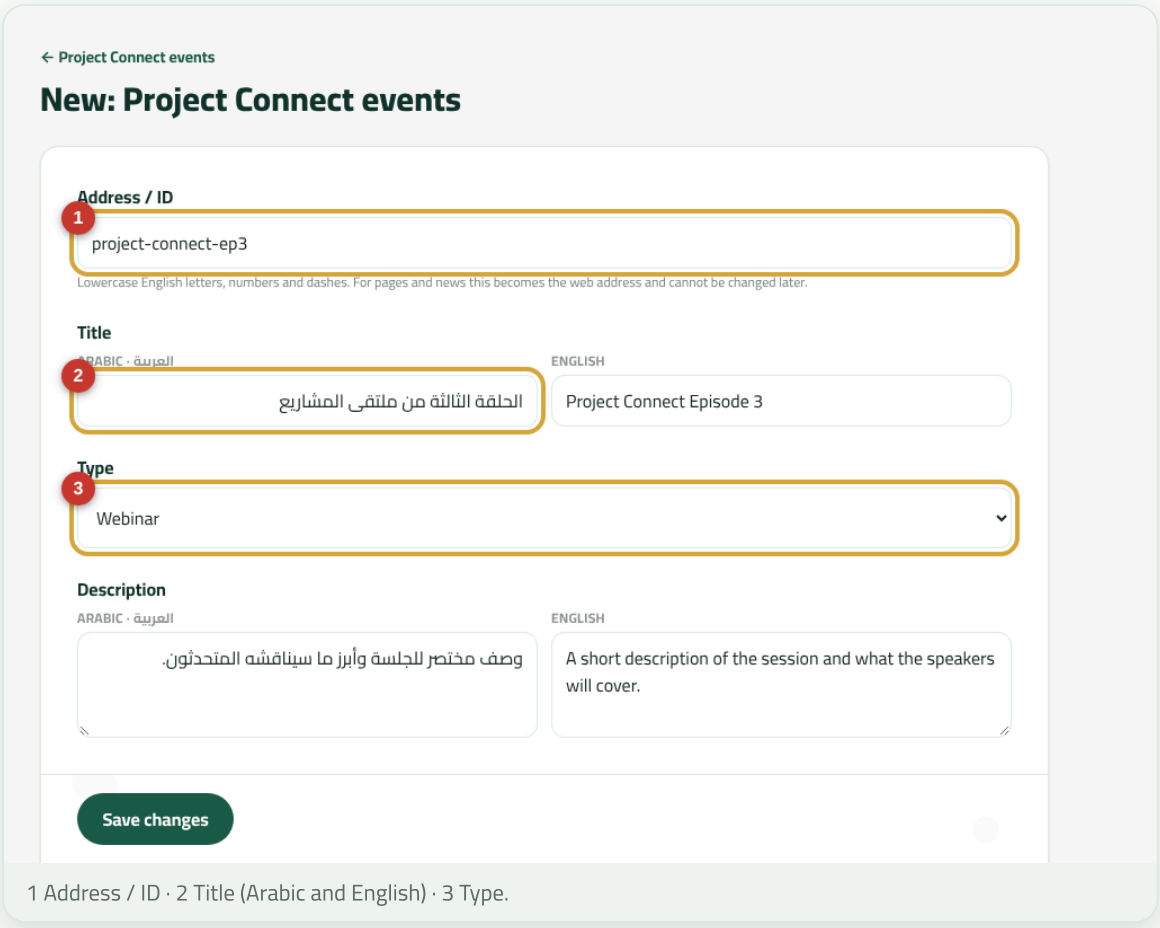

The button is at the top right of the list. To **change** an existing session instead, click its row (2).

1 Add new · 2 an existing session. Click it to edit.

4 Name the session

Address / ID: a short English name with dashes, for example `project-connect-ep3`. It cannot be changed later.
Title: type the Arabic title on the left and the English title on the right.
Type: Webinar, Workshop or Meetup.

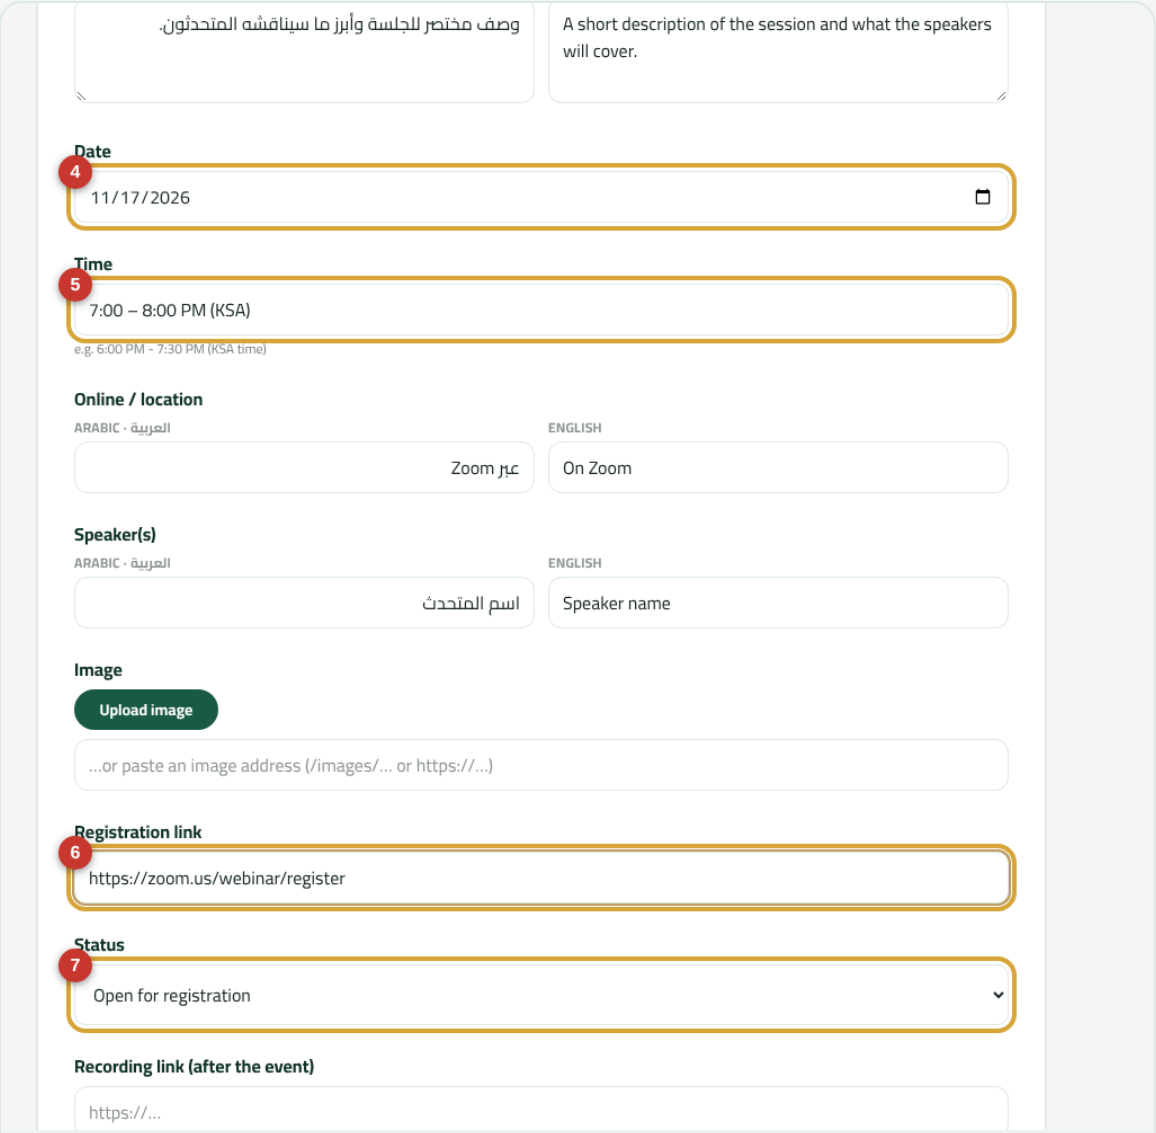

1 Address / ID · 2 Title (Arabic and English) · 3 Type.

5 Add the details

Description, **Speaker(s)** and **Online / location** are written in both languages.

6 Date, time, link and status

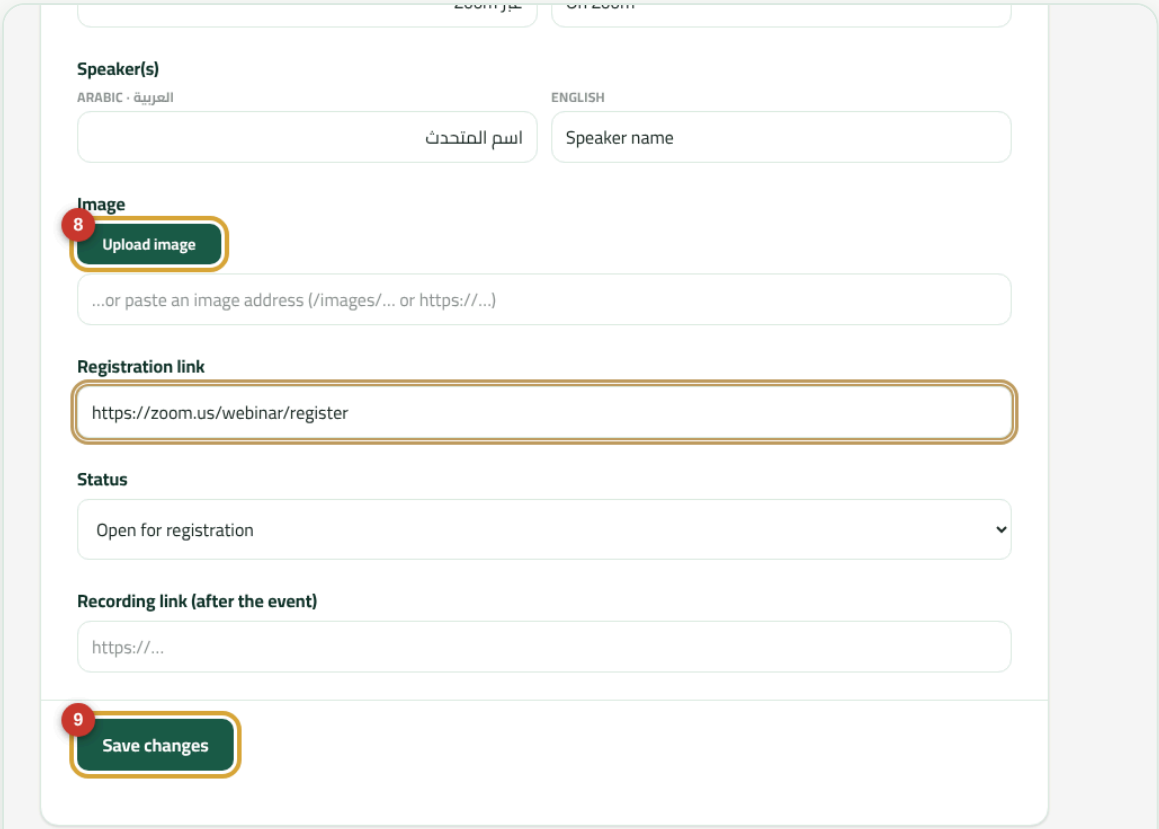

Date: pick it from the calendar (4).
Time: type it as shown, for example `7:00 – 8:00 PM (KSA)` (5).
Registration link: the Zoom registration link (6).
Status (7): **Open for registration** shows a Register button · **Coming soon** shows the session without registration · **Finished / closed** moves it to *Past sessions*.

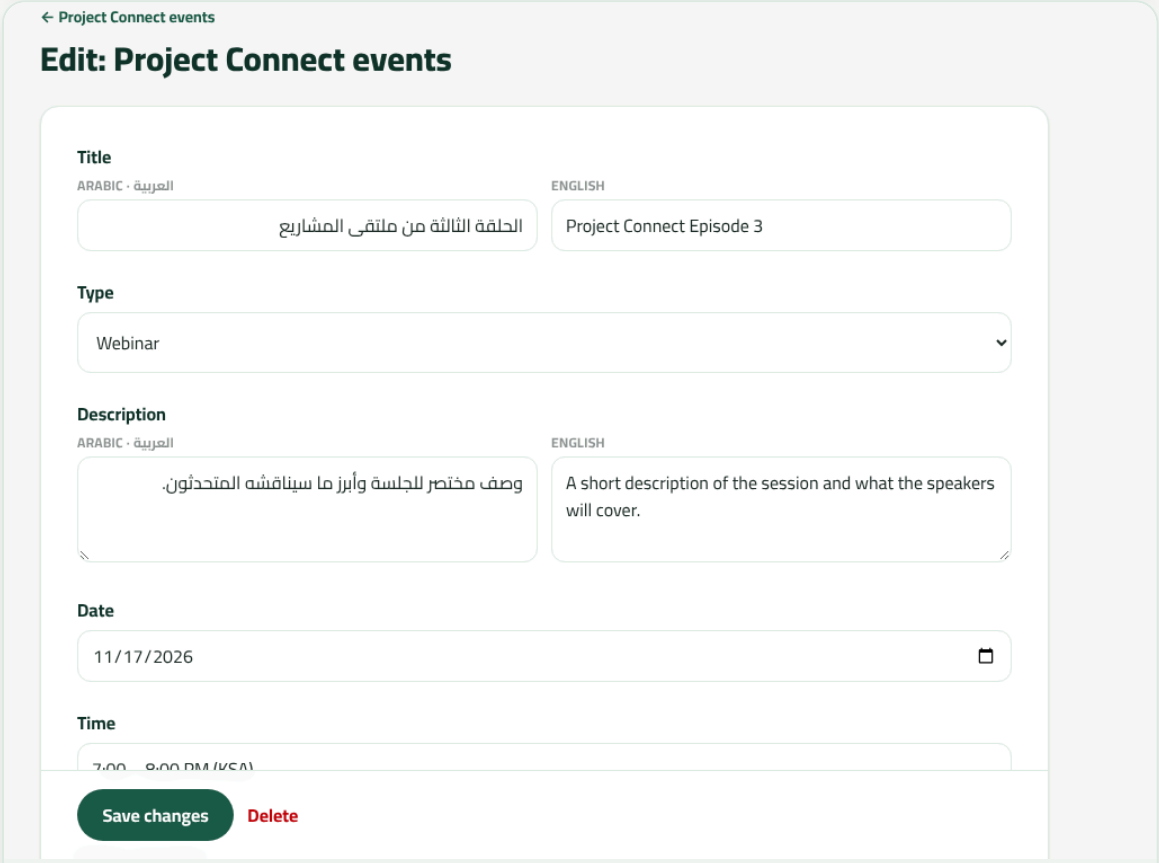

4 Date · 5 Time · 6 Registration link · 7 Status.

7 Upload the poster and save

Press **Upload image** (8) and choose the poster (JPG, PNG or WebP, up to 5 MB). Then press **Save changes** (9). The green message *"Saved. The website is updated."* confirms it.

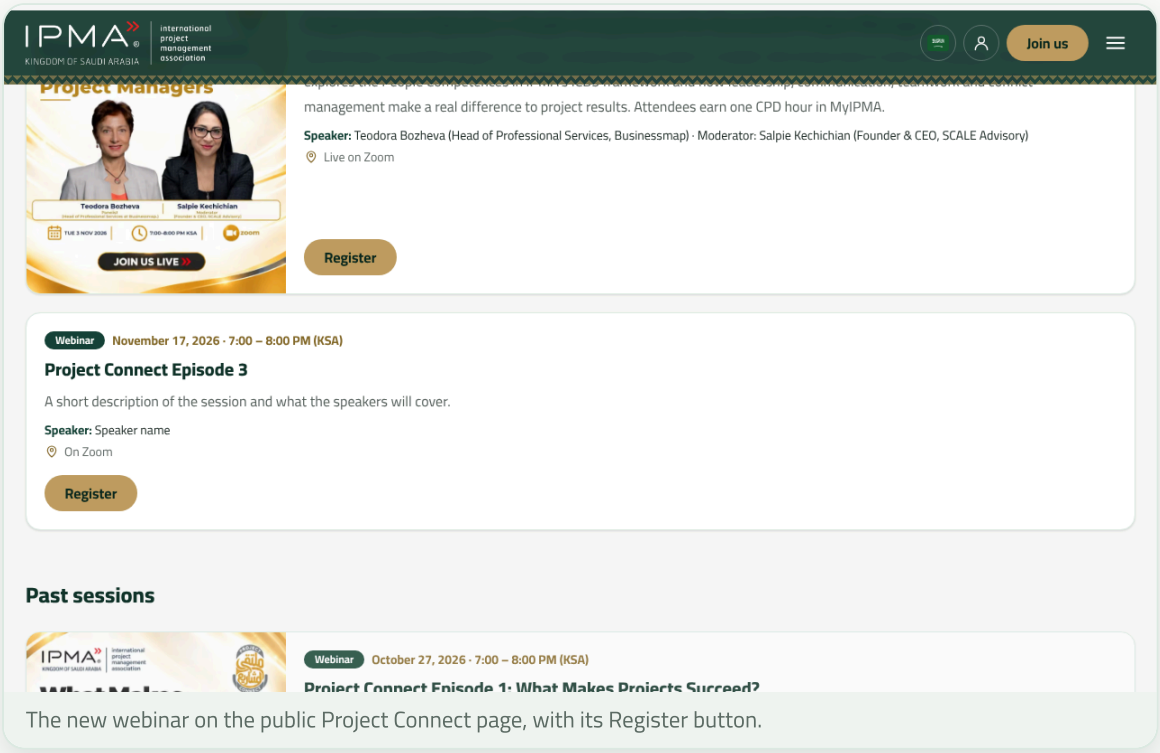

8 Upload image · 9 Save changes.

After saving, the address changes and the confirmation appears at the bottom.

8 Check it on the website

Open the website and go to **Project Connect**. The new session appears under **Upcoming** in both Arabic and English.

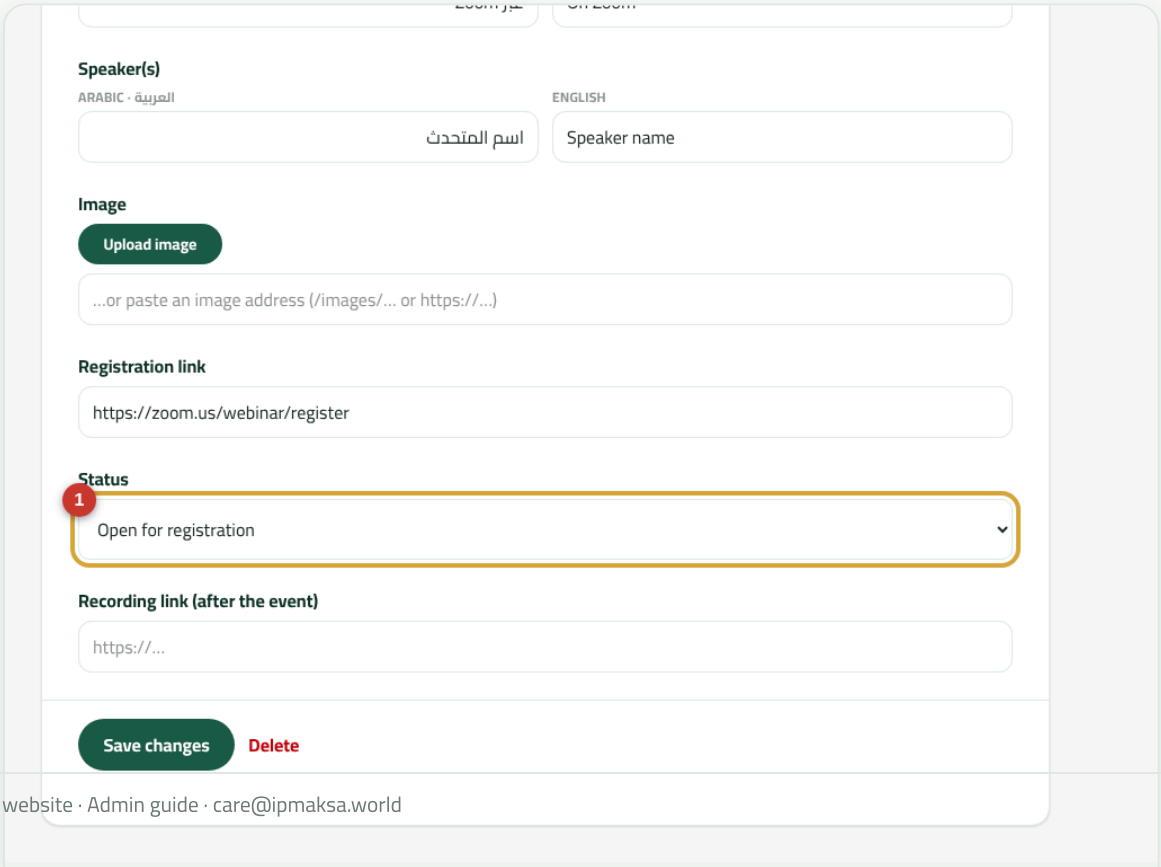

The new webinar on the public Project Connect page, with its Register button.

After the session

Close it and add the recording

Open the session again, set **Status** to **Finished / closed** (1) and paste the YouTube or Zoom link in **Recording link**. It moves to **Past sessions** with a “Watch recording” link.

Field guide: Project Connect session

Field	What to write	Required
Address / ID	English letters, numbers and dashes. Used internally. Cannot change later.	Yes
Title	Arabic and English	Yes
Type	Webinar, Workshop or Meetup	Yes
Description	2–4 lines in Arabic and English	Recommended
Date	Choose from the calendar. Sessions are sorted by date.	Yes
Time	Free text, include "(KSA)"	Recommended
Online / location	For example "On Zoom" or the venue	Optional
Speaker(s)	Names and roles	Optional
Image	The poster. Landscape or square works best.	Recommended
Registration link	Full address starting with https://	For "Open"
Status	Open · Coming soon · Finished	Yes
Recording link	Add after the session	Optional

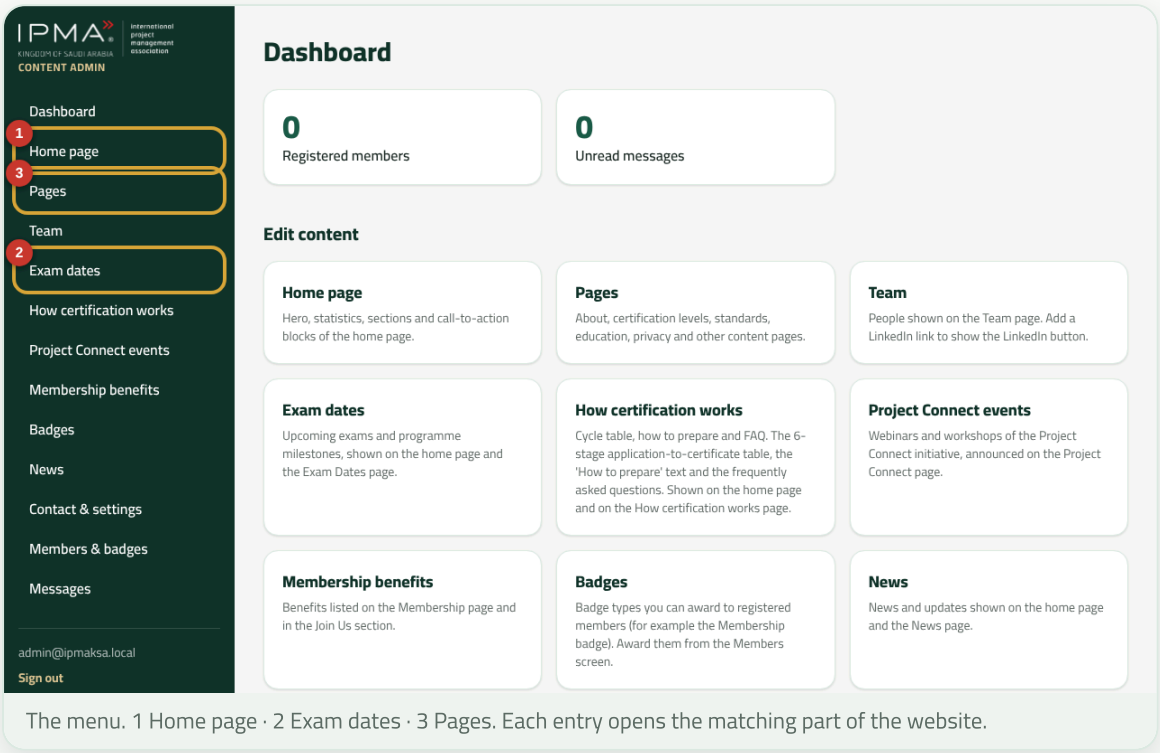

Tip: for a series, copy the pattern in the address: `project-connect-ep3`, `project-connect-ep4` … and keep the same title wording so people recognise it.

Check before saving: the registration link must start with `https://`. A link that does not will be removed for safety.

PART B

Edit the sections of the website

Every section follows the same pattern: **choose it in the menu → change the text → Save changes**.

The menu. 1 Home page · 2 Exam dates · 3 Pages. Each entry opens the matching part of the website.

Which menu edits which page? Home page → the home page. Pages → every text page such as About us and the certification levels. Exam dates → the Exam dates page and the home page cards. How certification works → the cycle table, preparation and FAQ on the home page and on its own page.

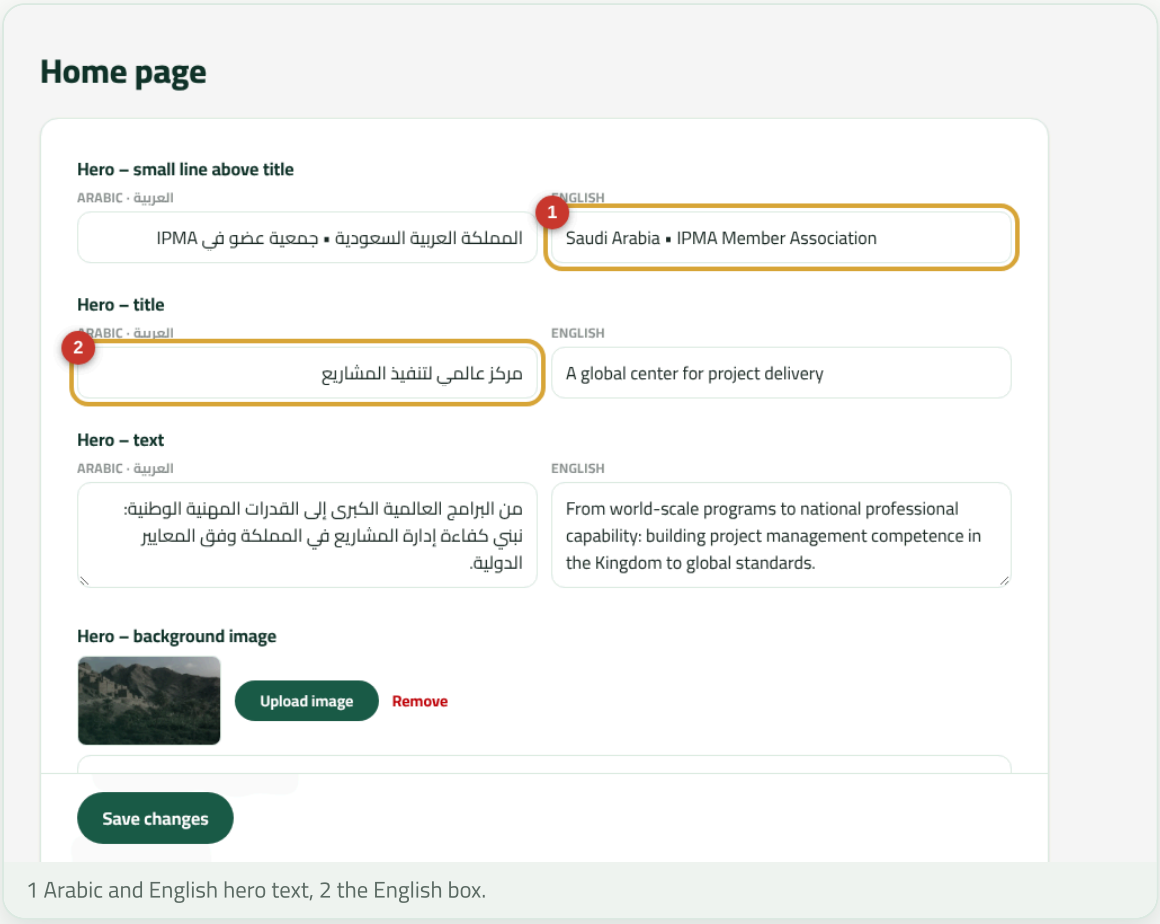

Example 1: change the home page title

1 Open Home page

Choose **Home page** in the menu. The form lists the sections from top to bottom.

2 Edit the text

Change the Arabic (1) and English (2) boxes for **Hero – title**. Statistics, benefits and other blocks are lower on the same page. Use ↑ ↓ to reorder items and **Remove** to delete one.

1 Arabic and English hero text, 2 the English box.

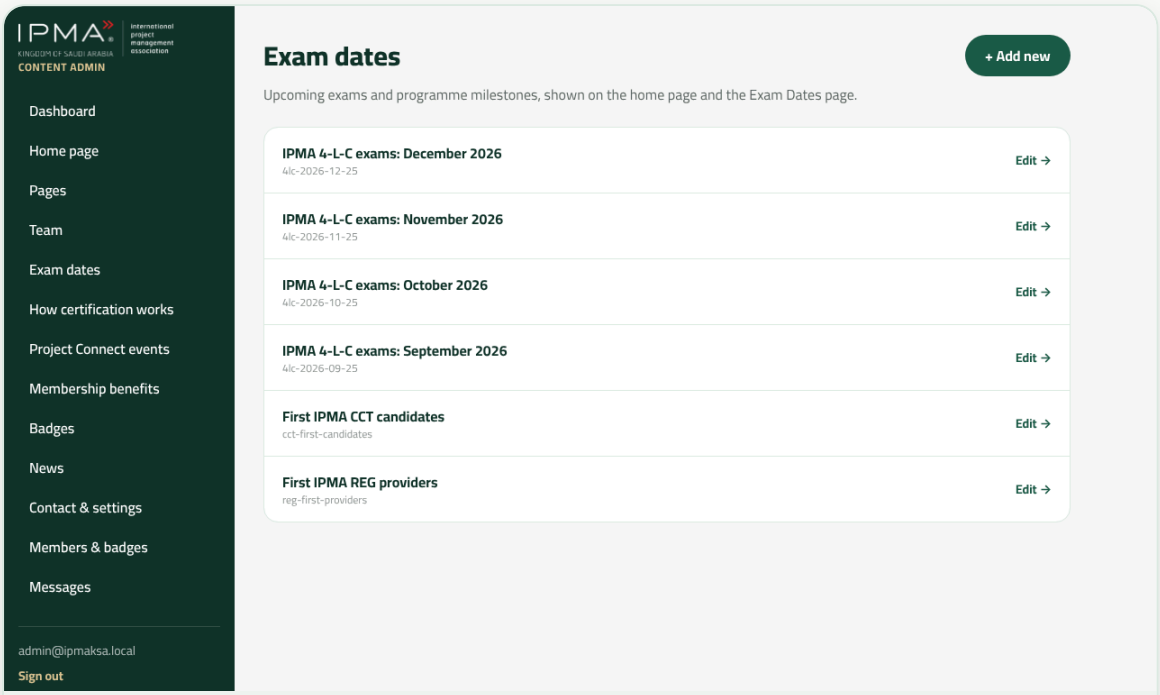

3 Save changes

Press **Save changes** at the bottom. Refresh the website to see it.

Example 2: update an exam date

1 Open Exam dates

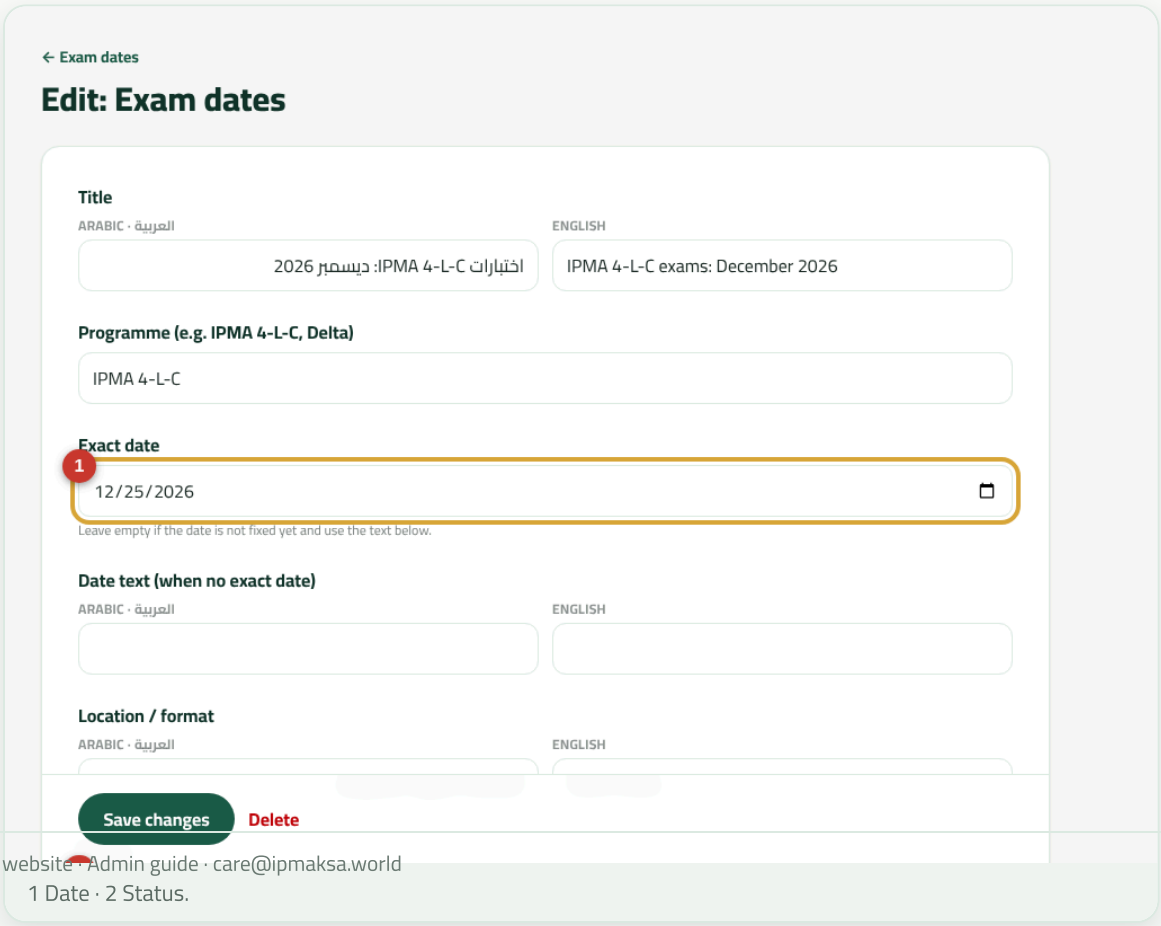

Choose **Exam dates**. Click the exam you want to change.

All exams, newest first.

2 Change the date and status

Pick the new **Date** (1) and set the **Status** (2): **Open** while registration is open, **Closed** when finished. Press **Save changes**.

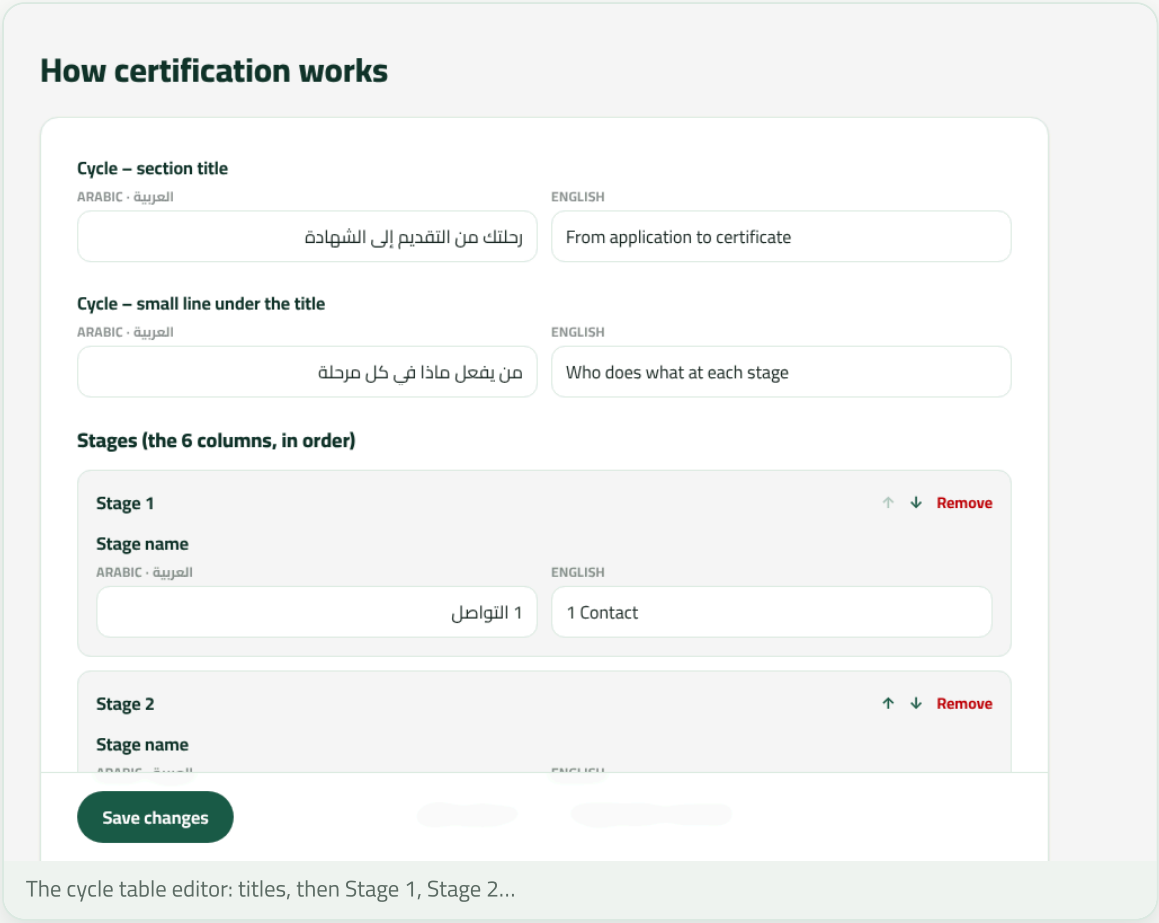

1 Date · 2 Status.

Example 3: add a frequently asked question

1 Open “How certification works”

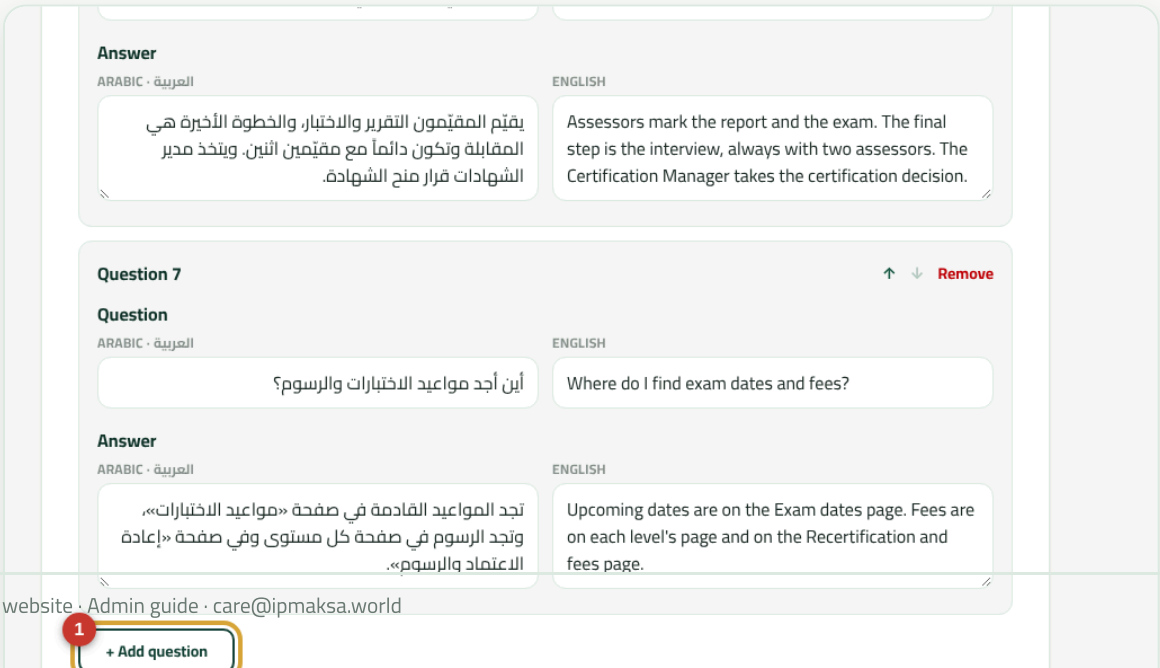

This menu holds the 6-stage cycle table, the **How to prepare** text and the **FAQ**. The first part of the form is the cycle: stages are the columns, roles are the rows, and each role has one action per stage. Leave an action empty if that role is not involved.

The cycle table editor: titles, then Stage 1, Stage 2…

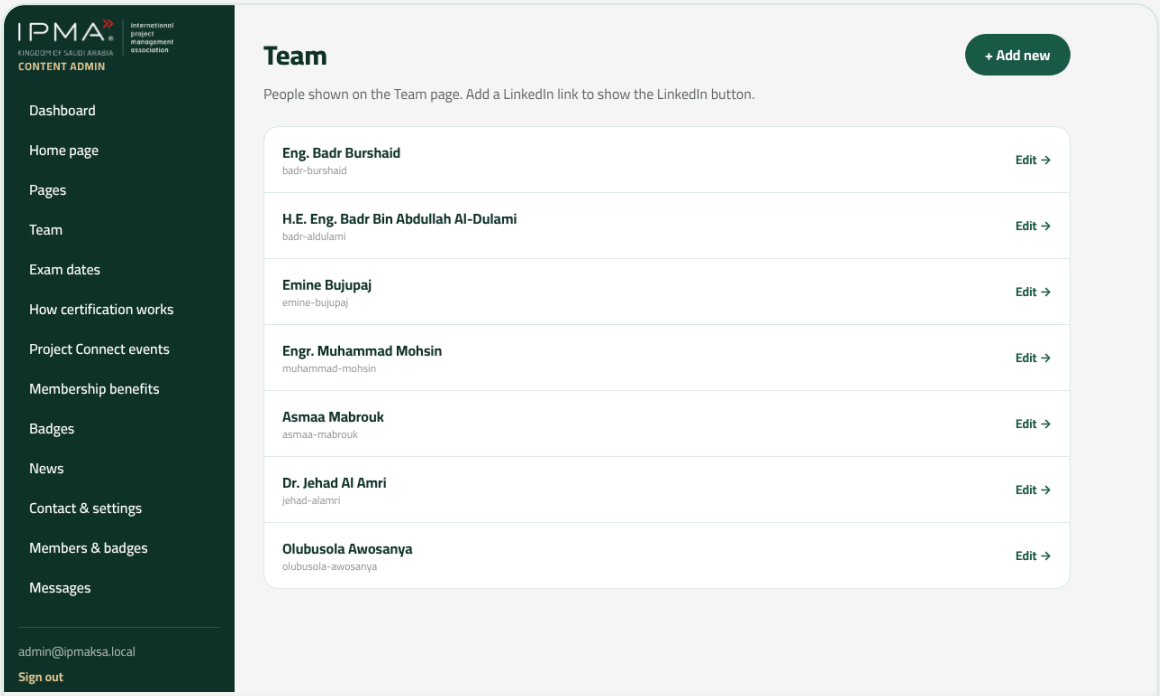

2 Add the question

Scroll to **Frequently asked questions** and press **+ Add question** (1). Write the question and the answer in Arabic and English. The first 4 questions appear on the home page, all of them on the full page.

Example 4: team members

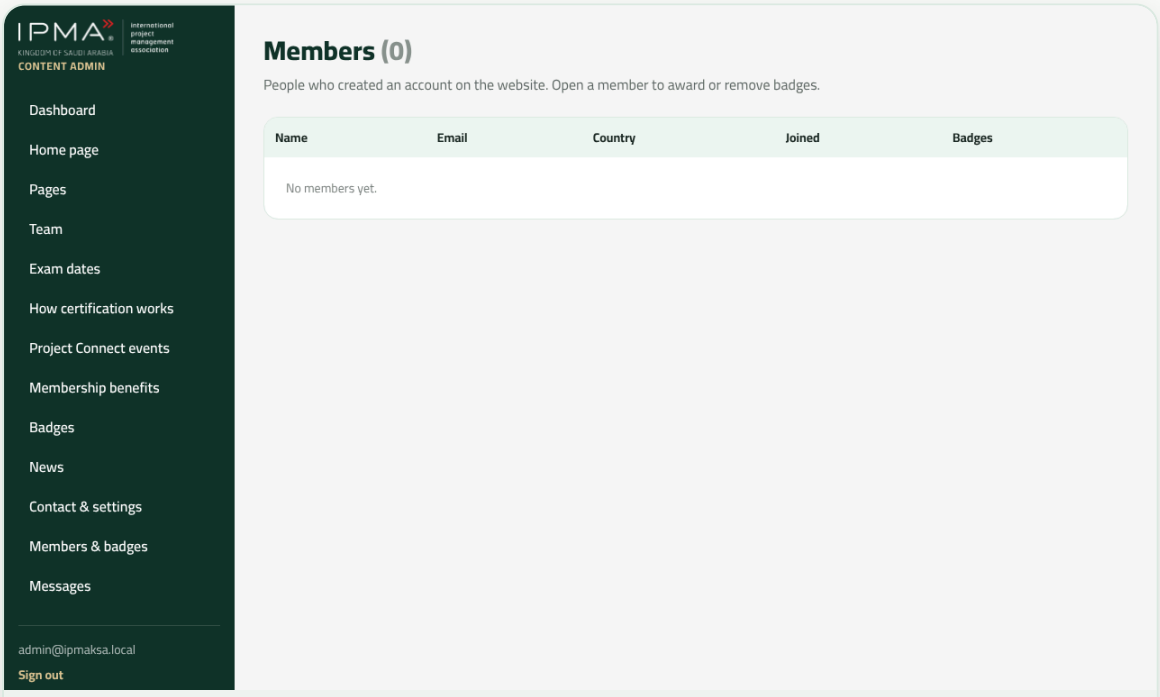

Open **Team**, click a person to change the photo, role and LinkedIn link, or press **+ Add new**. The first five people appear on the home page; the order follows the **Order** number.

The team list.

Example 5: members and badges

People who register on the website appear under **Members & badges**. Press **Manage** beside a person, tick the badge (for example **Membership**), add an optional note and press **Save badges**. The badge appears on their profile page immediately.

Registered members and the Manage link.

Quick reference

Add something

Menu → the section → **+ Add new** → fill both languages → **Save changes**.

Change something

Menu → the section → click the item → edit → **Save changes**.

Hide something

Set the status to Closed, or untick **Published**, then save. It stays in the admin.

Remove something

Open the item → **Delete** → confirm. This cannot be undone.

Good to know

- **Images:** JPG, PNG or WebP. Use posters and photos under 2 MB for a fast website.
- **Text formatting:** long text boxes accept `## Heading`, `- bullet` and `**bold**`.
- **Order:** use the ↑ ↓ arrows inside lists, or the **Order** number on team members.
- **Contact messages:** read and answer them under **Messages**. Mark them as read when done.
- **Signing out:** use **Sign out** at the bottom of the menu, especially on a shared computer.

If something looks wrong

Problem	What to do
I saved but the website did not change	Refresh the page. Check the item status (Closed and unpublished items are hidden or moved).
A new page or news item gives “not found”	Tick **Published** and save.
The registration button is missing	Status must be **Open** and the link must start with https://
I cannot sign in	Check the email spelling. After repeated wrong attempts wait 15 minutes. Ask your developer to reset the password.
The image did not upload	Use JPG, PNG or WebP under 5 MB.
